## REMAINS ON THE WAY TO CAPITOL.

of the Cabinet Accompany Body  
---Men, Women and Children  
Meet the Train at Stations.

MILBURN HOUSE, Buffalo, N. Y., Sept. 16.—The silent form of William McKinley was borne from this city in impressive state this morning and taken on its last journey to the National Capital.

Just eleven days ago he came to the Pan-American Exposition in full health and vigor. He was received with an enthusiasm that was unprecedented in the history of the annals of the city and for twenty-four hours enjoyed himself thoroughly. The story of the foulest of assassinations, the pathetic stride to recovery as outwardly demonstrated, while death was slowly working on the vitals, the breathless hope of a nation and loved ones, the terrible twenty-four hours of suspense, when death made its final demand against the human skill, all are matters of history now.

**Impressive Procession.**  
The brilliant statesman, who but twenty-four hours before had outlined his future policy to an assemblage at the Pan-American Exposition, the learned guest of a great city, was taken out in silent splendor, his career ended as far as his dominant personality is concerned, although his policies will remain. Thousands upon thousands watched the impressive procession this morning moving towards the depot. It was doubly impressive because of its lack of pompousness and because of the fact that, following closely behind the pall-covered corpse of the dead President, followed the successor to the title and the living change in the country's history. Buffalo stirred early this morning.

## SUGGESTIONS MADE TO THE PEOPLE OF OAKLAND

To the Citizens of Oakland, Greeting: The undersigned, your committee appointed by His Honor, the Mayor of Oakland, to arrange for a fitting expression of the grief of this community at the untimely taking off of our President, and of love and reverence for the memory of William McKinley, hereby submit a brief outline of the arrangements so far as made, and call upon all citizens of Oakland to spontaneously and heartily co-operate with the committee in successfully carrying out such arrangements.

The observances of the day will comprise a funeral cortege, to be followed by exercises in a number of the centrally located churches.

Details of both will be given through the papers. We desire at this time to urge upon all our citizens:

1. The absolute suspension of all and every branch of business during the day.
2. That all societies and organizations, civic and military, accept this public invitation to join in the solemn procession, without further invitation from the committee.
3. That all such organizations who will take part immediately notify the grand marshal, Sinclair Hodgkins, City Hall.
4. That all banners and flags carried and regalia worn be draped in mourning.
5. That all citizens not belonging to any organization participating shall march in the unattached division. Let every individual appearing in the procession wear upon the breast some emblem of mourning, either black ribbon or crape. Let all residences and places of business in the city bear some mark of mourning, and especially so along the line of march.

The marshal, Sinclair Hodgkins, will announce later the details of the formation of the procession.

### At the Milburn Mansion.

At the Milburn mansion, where the family of the dead statesman slept, at the Wilcox, where the new President resided, and down town near the City Hall, where the silent form of the former President lay, the guards were on the ground early and the streets kept clear of people.

It was not a particularly bright morning. The sun shone, but the wind blew in strong, fitful gusts across the city, tearing down the drapings and raising clouds of dust.

At the Milburn mansion, where Mrs. McKinley and the servants were astir early, there was more activity about the house than there has been since the shooting. By half-past 8 o'clock there were transfer wagons and carriages drawn up at the corners near the house and those within were up and preparing for the journey to Washington.

### Mrs. McKinley's Request.

Mrs. McKinley was not awakened until after 7 o'clock, when Dr. Rixey went to the room with one of her attendants. She had not slept well, despite the fact that she is almost thoroughly exhausted and that Dr. Rixey had given her a sleeping powder. The first thing she asked was a repetition of the query of the last two days, "When can I see the Major?" Dr. Rixey told her that they were going to let her see

him today and she then let her attendants dress her, and at 7:45 was ready for her light breakfast, which she took in her room alone. At 7:30 the baggage was ready and two trucks loaded with it moved to the depot. In one wagon was a hospital bed, and it was thought that this was for the use of Mrs. McKinley, in view of the certainty of the fatigue of the journey and the possibility of a collapse.

Colonel Bingham, who was in charge of the arrangements, said at 7:30 a. m. that none of the party would go to the City Hall, where the body lay, but that all would go directly to the train. This would be done on Mrs. McKinley's account. At 7:32 the Misses Duncan, Mrs. McKinley in Mourning.

In one wagon was a hospital bed, and it was thought that this was for the use of Mrs. McKinley, in view of the certainty of the fatigue of the journey and the possibility of a collapse.

A few minutes later Senator Fairbanks, Controller of the Currency Daves and Elmer Dover, Secretary to Senator Hanna, emerged from the house and entered a carriage. Following, a White House messenger rushed down the walk and ordered the windows in one of the carriages closed.

### Mrs. McKinley in Mourning.

At 7:35 several figures stepped silently out upon the porch and walked down towards the carriage. Mrs. William McKinley, robed in garb of mourning and supported by Abner McKinley on one side and Dr. Rixey on the other, was the central figure. To the surprise of all she walked briskly with her head quite erect, her face hidden behind her long black veil. She got into the carriage with her favorite niece, Miss Barber, Abner McKinley and Dr. Rixey and they were driven at once to the depot. So far as could be seen, she sat erect and unsupported in the carriage.

The family of Abner McKinley, other relatives of the dead President and Secretary Cortelyou followed in other carriages and the Milburn house, famous now because of its connection with a great national tragedy, went back into the possession of its owner, who had so kindly given it up to the use of the President and his family.

The street corners near the house which for a week had been crowded with newspaper men, telegraphic booths and waiting carriages, resumed their wonted appearance; the Military guard was withdrawn, the police resumed their normal occupation and the exciting incidents that had marked the locality became a memory.

### President Roosevelt.

President Roosevelt did not arise until 7 o'clock. He dressed quickly and at 7:30 was ready for breakfast. He breakfasted with the family of his host, Ansley Wilcox. Just after 8 o'clock had struck, together with Mr. Wilcox and his secretary, William Loeb Jr., the President got into a carriage and drove to the train. A few mounted police followed the carriage and three or four detectives and secret service men were nearby. Otherwise there was nothing to distinguish the President from an ordinary citizen.

### Moving the Body.

The slow and stately progress of the President's body from the city hall to the railroad station afforded the people of Buffalo a last opportunity to do honor to the memory of the lamented Executive.

Statue-like, the guard of honor at the catafalque maintained his position throughout the long hours of the night. There was a sergeant of artillery at the head of the bier, a marine at the foot. On one side was a sergeant of infantry, on the other a marine. It was a few minutes after 5 o'clock when there came signs of life from within the corridor, where the body of William McKinley reposed. The doors were flung open, the gates swung ajar. At 7:07 forty

sailors from the steamship Michigan swung up Franklin street, the first detachment of the cortege's escort. The blue jackets wheeled into line directly opposite the entrance of the city hall. Four minutes later the four-horse hearse drew up and a company of marines filed into position. Five of the Cabinet officers arrived in two carriages. The first carriage contained Secretary Long and Postmaster-General Smith. The other held Attorney-General Knox, Secretary Wilson and Secretary Hitchcock. United States Senator Joseph Hawley of Connecticut was next to arrive. Exactly at the appointed hour, 7:43, the escort was in perfect readiness. In clarion tones Major Mann, commanding the escort, delivered the order, "Present arms." Noiselessly the arms leaped to position; the commanding officer turned about, and, facing the house of the dead, brought his sword to "present."

A minute of awe-inspiring silence, and then, emerging from the doors of the City Hall, there moved the eight body-bearers, four soldiers and four sailors. On their shoulders rested the casket, enclosing the body of the country's beloved one.

### "Nearer My God to Thee."

Down the line of soldiers of the Sixty-seventh regiment band came the strains of "Nearer My God to Thee." Behind long ropes the throng uncovered and with bowed heads waited and watched in silence. Tenderly the precious burden was borne slowly down the stone steps, along the curved approach to the hearse. The flag-draped casket was lifted gently into the hearse and the doors closed. Through the windows of the hearse naught but a mass flag, surmounted by a single sheaf of wheat could be seen. In front came troops wheeling into line and moving down Franklin street. Once more the strains of music, this time Chopin's funeral march, accompanied

## ROOSEVELT TELLS OF POLICY.

BUFFALO, N. Y., Sept. 16.—President Roosevelt has outlined, in some detail, the policy he will follow during his incumbency of office. It will be remembered that when he took the oath of office he stated with much definiteness: "It shall be my aim to continue absolutely unbroken the policy of President McKinley for the peace and prosperity of the country."

The building and completion as soon as possible of the isthmian canal, so as to give direct water communication with the coasts of Central and South America and Mexico. The construction of a cable, owned by the Government, connecting our mainland with our foreign possessions, notably Hawaii and the Philippines.

## THE ASSASSIN TO BE INDICTED

BUFFALO, N. Y., Sept. 16.—The County Court Grand Jury today began its consideration of the case against Leon Czolgosz, charged with murder in the first degree in killing President McKinley. District Attorney Penney himself is presenting the case. About twenty witnesses assembled in the District Attorney's office, and, after examining a few of them, Mr. Penney took Dr. Mynter into the jury room. He was the first witness sworn, and testified as to the preliminary examination and finally as to the death of the President and the causes leading to it.

Drs. H. R. Gayford and H. G. Matsinger, who performed the autopsy, gave evidence to show that the President's death was caused by a bullet wound, while Dr. Mann was a witness to prove the same facts.

Secret Service Detective Gallagher, who stood near the President when he was shot, James L. Quackenbush and L. L. Babcock of the Pan-American committee to receive the President, each gave evidence to connect Czolgosz with the crime.

Alexander H. Robertson of the Pan-American police force told the story of the circumstances of the day. Then the Grand Jury took a recess until 2 o'clock.

The trial will begin on Monday next before Supreme Justice White.

At 3:40 it was believed to be impossible to complete the taking of evidence and arraign the prisoner before evening.

# PLANS MADE FOR THE FUNERAL IN OAKLAND.

PROMINENT CITIZENS WILL ACT AS PALL BEARERS — ALL CIVIC ORGANIZATIONS ARE EXPECTED TO BE IN LINE ON THURSDAY.

A meeting of the committee appointed by Mayor Barstow to carry out plans for the observance of the national memorial day set apart by President Roosevelt was held yesterday afternoon at the offices of Congressman V. M. Metcalf. The members of the committee are the same as served upon the Reception Committee only a few weeks ago, upon the occasion of the visit of President McKinley to Oakland. The committee is made up as follows: P. E. Bowles, J. A. Britton, Sam B. McKee, H. C. Taft, Edison F. Adams, and Hon. Fred M. Campbell. P. E. Bowles was chosen to act as chairman of the committee, and Fred M. Campbell as Secretary.

Next Thursday, set apart by President Roosevelt as a national memorial day, is to be appropriately celebrated in this city, and the committee in charge yesterday decided upon a funeral cortege, and services at the following centrally located churches: First Methodist Episcopal, First Presbyterian, St. Paul's, St. Francis de Sales, Unitarian, and those other churches that are desirous of holding services, and who notify the committee of such intention. It is arranged that the church services will take place immediately upon the dismissal of the cortege near the City Hall.

In the place of a catafalque, customary on such occasions, it has been decided by the committee to use the carriage in which the late President rode during his visit to this city last April. Upon this occasion the carriage will be draped in mourning, and will be drawn by six black horses, the caparison of which will be in harmony with the carriage draperies.

The honorary pall-bearers, who are to march on either side of the vacant carriage, are as follows: Mayor Anson Barstow, John Mitchell, chairman of the Board of Supervisors; Frederick S. Stratton, Senator George C. Perkins, Congressman Victor H. Metcalf, Frank A. Leach, John P. Irish, and President Benjamin H. Wheeler of the State University. The procession is to be made up of all organized bodies who desire to participate, and is to move at 12 o'clock, at which time the actual services at Canton, Ohio, are to begin.

Chief of Police Hodgkins has been chosen as grand marshal of the parade, and those wishing to take part in the procession, whether members of organizations or unattached should notify the chief at the committee rooms, 909 Broadway, not later than 3 p. m. Wednesday next. All banners and flags of organizations, and regalia of the different organizations must be draped in black, with the exception of those provided for the clergy.

Since the time for preparation is very brief, and as there is a universal desire to show respect to the late Chief of the Nation, no invitations will be sent to organizations or to individuals except the general invitation published by the press.

Organizations will apply immediately to the grand marshal for assignment to position in the line, and the latter will take notice of the instructions to be printed later.

The line of march will be from lower Broadway to Sixth, to Washington, to Fourteenth, to Broadway, to Ninth, and counter-march to Fourteenth, to Webster, to Durant, and to the flag staff at the intersection of Telegraph and New Broadway for dismissal.

Appropriate music will be furnished the marchers by three bands. During the progress of the procession it is desired by the committee that all church bells be tolled.

The following committee of clergymen was appointed to arrange for the church services: Rev. E. E. Baker, Rev. C. R. Brown, Rev. P. E. Dille, Rev. H. R. Ritchie, Rev. T. Mcweeney, Rev. H. F. Mills, Rabbi Friedlander and Rev. H. J. Vosburgh. This committee will meet at headquarters tonight. But one request has been made of the clergy by the executive committee—that in each place of worship the late President's favorite hymn, which he faintly chanted as he sank into unconsciousness be

by the tolling of the church bells. Behind the troops came the carriages of the members of the Cabinet. Then came the hearse and following were comrades of the Grand Army, with a company of local militia bringing up the rear. The cortege passed into Church street, winding past St. Paul's Church into Main street. Down Main street the procession moved between masses of people, all uncovered. The high winds from off Lake Erie snapped and whipped the bunting and crepe with which every building was draped. Above the buildings American flags and black streamers hung at half-mast.

**At the Station.**  
The line had begun its march at 7:50. Half an hour later, with measured step and to the strains of the constantly playing band, the line turned into Exchange street, where the railroad station is located. As the cortege passed Elliott street it was met by the carriage bearing the President of the United States, Theodore Roosevelt. By the President's order his carriage was stopped, and with bared head the nation's new executive waited the passage of his predecessor's funeral cortege.

Once more the troops were drawn up in line and came to "present." The hearse stopped in front of the baggage entrance to the depot. As the undertaker took hold of the door of the hearse to open it and the body-bearers prepared to draw the coffin out a hush fell on the multitude. Then from the column came the sound of the "long roll." As it ceased there arose, clear and sweet, the notes of the beautiful hymn, "Nearer My God to Thee." The soldiers raised the flag-covered casket on their shoulders and moved toward the train as the band took up the air of the grand old hymn, "O God, Our Help in Ages Past."

On the curb stood President Roosevelt with Senator Hawley. The former had refused the advice of the police to move into the depot yard, and with his hat in his hand he stood silently watching the body being removed. General Brooke and his staff fell in directly behind the casket; then came the President, Secretary Cortelyou and Senator Hawley, and then, walking with his cane for assistance, followed Senator Hanna, accompanied by his son.

**Mrs. McKinley's Condition.**  
Mrs. McKinley and the other members of the family had entered their car half an hour before the body arrived. The journey down in the carriage, from the windows of which she could see the emblems of mourning, affected Mrs. McKinley seriously, and when she stepped from the carriage, assisted by Dr. Rixey and Abner McKinley, her limbs failed her and she would have fallen but for the support accorded her. She entered the station and was assisted into the car, in which she and the dead President made the trip into the city of his death. On the car her relatives took charge of her and Dr. Rixey gave her a tonic. Dr. Rixey thinks she will be able to go through with the state ceremonial at Washington, but the change of arrangements so that the body shall leave Washington Tuesday night was made so as to avoid too great a strain.

**PROGRAMME FOR THE FUNERAL.**  
Commissioner McFarland Gives Out the Order of Exercises For Tomorrow.  
WASHINGTON, Sept. 16.—Commissioner McFarland today announced the program for the religious services upon the arrival of the remains of the late President in the rotunda of the Capitol tomorrow, as follows:

**ASTHMA CAN BE CURED.**  
A Noted Physician Will Prove This to Sufferers in Oakland Thursday.  
The astonishing statement that Asthma can be cured, coming from so well known authority as Dr. Rudolph Schiffmann, will be of interest to asthma sufferers. The experience of most Asthmatics has been that little if any relief has been afforded them by the methods heretofore employed, and, in fact, the disease has up to now been regarded as incurable. This noted physician has, however, after a life-long study of Asthma and kindred diseases, discovered a remedy which not only instantly relieves the severest cases of Asthma, Hay Fever and Bronchitis but has actually cured thousands whose cases had been pronounced incurable. So complete is Dr. Schiffmann's confidence in his remedy that he requests this paper to announce that all day, Thursday, September 19th, he offers a liberal sample box of "Schiffmann's Asthma Cure" free of charge to all persons applying at Bowman and Co.'s drug store, 1109 Broadway.

Dr. Schiffmann believes that an actual test will be the most convincing, and in fact the only way to overcome the natural prejudice of thousands of Asthmatics who have heretofore sought relief in vain. Persons living out of town will receive a package free by writing direct to Dr. R. Schiffmann, 370 Jackson street, St. Paul, Minn., before September 21st, and enclosing a 2c stamp.

# LONDON MOURNS OUR PRESIDENT.

Memorial Services to Be Held in Westminster Abbey on Thursday.

LONDON, Sept. 16.—The United States Embassy, though not yet officially informed of the fact, learns that a memorial service in honor of the late President McKinley will be held in Westminster Abbey Thursday afternoon, at which seats will be reserved for members of the government and the diplomatic corps. A memorial service also will be held simultaneously at St. Paul's Cathedral, the Lord Mayor and the sheriffs of the city of London attending in State.

Many well known persons called at the United States Embassy today and entered their names in the visitors' book, while others telegraphed condolences.

The newspapers here continue to express the hope that the Duke of Cornwall and York will be able to attend the funeral of President McKinley, but it seems now extremely doubtful if it can be arranged, especially since the ceremonies at the Capitol have been fixed for Tuesday. Government circles seem to think that direct, immediate action on the part of King Edward is the only way to bring about the attendance of the Duke at Washington.

"It would be a unique opportunity," the Westminster Gazette says, "for showing British sympathy with the United States, owing to the accidental fact that the King's son is near at hand, we are sure, it would be appreciated by the American people."

By command of King Edward, the Union Jack, which floats over the Round Tower of Windsor Castle during the absence of the court, is half-masted as a tribute of respect to the late President McKinley.

The London Stock Exchange will be officially closed on Thursday next, the day of interment of President McKinley at Canton, O.

Evidences of mourning for President McKinley are widespread at Cork. The Lord Mayor of Cork, Sir Daniel Hegarty, has convened a meeting of the corporation for September 25 to pass a vote of sympathy with Mrs. McKinley and the citizens of the United States.

**LEON CZOLGOSZ'S CASE BEFORE GRAND JURY.**  
BUFFALO, N. Y., Sept. 16.—The case of Leon Czolgosz, the assassin of the President, was presented to the Grand Jury this morning.

In case the jury reports today the District Attorney declines to say whether he will be arraigned at once.

**ROYALTY SENDS MESSAGE OF SYMPATHY.**  
COPENHAGEN, Sept. 16.—The King of Greece, the Crown Prince of Denmark, Frederick, in behalf of the King of Denmark, and Prince Christian, the heir presumptive to the throne of Denmark, all called personally on the United States Minister, Mr. Swenson, and expressed sympathy and condolence with the people of the United States and Mrs. McKinley on the death of the President.

**COURTS TO ADJOURN OUT OF RESPECT TO MCKINLEY.**  
On motion of Assistant District Attorney Geo. Samuels, representing the District Attorney's office, Judge Melvin ordered the criminal department of the Superior Court adjourned until Friday morning out of respect for the late President McKinley. The adjournment was ordered for the cases on the calendar had been disposed of.

It is likely that a formal motion will be made by representatives of the Bar Association Wednesday before the Superior Judges sitting in banc for an adjournment Thursday, when the memorial exercises are to be held. Steps in this direction are now being taken.

**PURCHASED BONDS.**  
WASHINGTON, Sept. 16.—The Secretary of the Treasury today purchased \$1,500,000 long term 4 per cent bonds at \$110 and \$100 short 4 per cents at \$103.375.

The Pacific Mutual Life Insurance Company has, by a contract with the Metropolitan Life Insurance Company, the Metropolitan has agreed to assume all the Pacific Company's outstanding Industrial policies with the consent of the holders thereof.  
The Metropolitan is the largest Industrial Company in the country, being as large as all the other companies put together.  
It has over \$62,000,000 assets; over \$8,000,000 of surplus; nearly five and a half millions of Industrial Policies in force for an insurance amounting to nearly a thousand millions of dollars.  
It paid over \$8,000,000 in death claims last year, and pays a claim on the average every seven minutes.  
It is the most liberal Company in its treatment of Policy Holders in the whole country, or in the world.  
For many years it has written more insurance annually than any other company in the world.  
In purely ordinary business, aside from the Industrial, it stood No. 4 last year, being preceded only by the New York Life, the Mutual and the Equitable.  
The Industrial field force—Superintendents, Assistant Superintendents and Agents, of the Pacific—have for the most part joined the Metropolitan. They will call upon the policy holders and invite them to have their policies guaranteed by the Metropolitan. The Metropolitan agrees to carry out in every respect the policy contracts of the Pacific; so that the Pacific Industrial policies will now have sixty-two millions of assets behind them. New policies will not be required. The Pacific policies will be stamped with a contract of assumption by the Metropolitan.  
The Industrial insurance offices of the Pacific have become the offices of the Metropolitan.  
In this city the Office and Superintendent are as follows:  
Mr. Thomas Foster, Superintendent, Rooms 413-414 Central Bank Bldg., 14th and Broadway, Oakland, Cal.  
The Metropolitan Insurance Company has established its Pacific Coast Head Office at 419 California street, San Francisco, as temporary headquarters until more commodious offices can be obtained, and from this Head Office policies will be issued and claims paid. # DR. PIERCE'S FAVORITE PRESCRIPTION

"I had been a sufferer for many years from nervousness with all its symptoms and complications," writes Mrs. O. N. Fisher, 1861 Lexington Ave., New York, N. Y. "I was constantly going to see a physician or purchasing medicine. In the spring of 1897 my husband induced me to try Dr. Pierce's Favorite Prescription. After taking one bottle and following your advice I was so encouraged that I took five more bottles, and then stopped for several weeks as I felt so much better, but still I was not completely cured. I commenced taking it again and felt that I was improving more than at first. I am not now cross and irritable, and I have a good color in my face; have also gained about ten pounds in weight, and one thousand pounds of comfort, for I am a new woman once more and your advice and your 'Favorite Prescription' is the cause of it. I could not tell you of all the good that is not to be dispensed with. I took eight bottles of the 'Prescription' the last time, making fourteen in all, and will not take any more unless you so advise, for I do not see as I need it."

# RAILROAD NEWS FROM THE WEST OAKLAND YARDS.

SEVENTY-FIVE NEW CARS TO HAUL DIRT FROM THE TIDAL CANAL—CALIFORNIA LUMBER FOR AUSTRALIA  
—NOTES AND PERSONALS.

All the available car-builders at the West Oakland Yards have been put to work on seventy-five cars which are being constructed to carry away the dirt excavated from the Tidal Canal. There have been twenty-five cars completed already and it is estimated that four or five days will be required to complete the remaining fifty.

Since active work has begun on the Tidal Canal, rush orders have been issued so that the cars would be ready when the work of excavation commenced. It is estimated that fully seventy-five flat cars will be required to handle the dirt from the Canal effectively. The great scarcity of all kinds of equipment including passenger coaches, freight cars, engines and even flat cars, made it necessary for the Southern Pacific Company to construct the seventy-five special cars which will be used solely in handling the excavations from the Canal.

The dirt from the Canal will be carried from the point of excavation to the tidal land along the rail-road pier and mole of the Seventh street local, which is being re-claimed by the Southern Pacific for the purpose of extending the West Oakland Yards. The land filled in by the excavations of the Canal will be used for enlarging the plant of the machine shops and also for the addition of a number of tracks which will facilitate the switching of the large number of trains that daily make up in the yards. More ground for switching purposes has been badly needed for several years.

It is estimated that the dirt excavated from the Canal on account of its close proximity, will save the Southern Pacific many thousands of dollars. The filling in of the ground selected by the Company for the enlargement of its switching yard and machine shop is one of the most expensive local improvements undertaken for some time. The dirt from the Canal will save the Company the expense of hauling the material from more inaccessible and distant points.

## STRIKE HAS NOT REDUCED THE TRAFFIC.

Contrary to the general opinion the strike of the teamsters and stevedores has not interrupted the freight traffic in the yards but during the last few weeks it has actually increased. General Yardmaster Cotton states that while there is almost a congestion of heavily loaded freight trains, it is not due to the effect of the strike, but principally to the lack of motive power and cars. Last week the increase in the volume of freight handled over that of the week before is nearly 200 cars per day. Yesterday the total number of cars handled was 527 by the day crew which represents an increase of a little more than 200 cars over the number handled last Friday.

Master Car Repairer Englebright states that the Southern Pacific has never enjoyed a like period of prosperity in its career. Ever since the end of the Spanish war, he states, the volume of freight and passenger business has increased to such an extent that the various departments have been unable to keep pace with the business, and that each department is overworked in attempting to keep both freight and passenger cars in service.

The new engines which are expected very shortly from the Baldwin Locomotive Works are badly needed at the present time. It has been found necessary, owing to the rush at times, to ship only perishable goods, delaying the cars loaded with substantial articles several days at a time.

Night Yard Master Hackett and Assistant Yard Master Brown state that segregating the freight cars loaded with perishable goods from those loaded with staple articles doubles the work almost in the yards, but since trains are no longer dispatched to San Francisco by the way of San Jose, the pressure has been somewhat relieved.

## AN INTERESTING PROCESS FOR PRESERVING TIES.

The railroad company is employing a new and interesting process of burn-treating and creosoting piles and railroad ties which will result in an enormous saving to the company by preserving the wood at least ten years beyond the age they now attain.

About 4,000 ties are now treated daily and are distributed to all parts of the system. Two huge boilers, 112 and 120 feet respectively in length, capable of holding from 500 to 700 ties at a time are in operation, requiring about forty men to attend to them. The process by which the ties are prepared is a secret which the company jealously guards, but the new process is known to be a complete success, saving the company enormous sums of money in keeping the road beds in repair. The ordinary tie will last from seven to ten years, but when they are burn-treated by the special process they are good for upwards of twenty years. In the Southern Pacific system there are, roughly estimated, about 100,000,000 ties. If these had to be renewed every seven years, the cost would run into millions of dollars. The new process will save over one hundred per cent in repair work alone, besides insuring the public against dangers arising from defective ties.

## BOILER MAKER DICKSON FRACTURED HIS LEG.

Thomas B. Dickson, while working on the boiler of an engine in the back shop last Wednesday, fell and broke his leg.

It is not known in what manner Dickson lost his balance and fell. He laid ten minutes in the position he had fallen. The incessant and deafening noise of the machine shops prevented

his cries for help being heard by his companions. Dickson suffered great pain before he could be removed. He was taken to the Southern Pacific Company hospital in San Francisco, where he will be cared for until fully recovered.

## OIL BURNING ENGINES FOR CITY OF BERKELEY.

Today an oil-burning engine was substituted on the Berkeley local one of the coal using engines. This is the first engine to be put on the Berkeley line permanently.

Engine No. 1992 on the Seventh street local will also be using oil tomorrow instead of coal. The oil burning engines have given such complete satisfaction that all engines which enter the repair shops are converted into oil burners before they leave the shop.

## MACHINIST ECKLAND NOW OWNS AN AUTOMOBILE.

C. Eckland of the machine shops some time ago purchased a broken down automobile which was about ready for the scrap-iron pile. By exercising his mechanical ingenuity he has made a very presentable horseless carriage out of it. It is believed Eckland is the only mechanic in California who can afford the luxury of an automobile.

## SCHOOL OF INSTRUCTION HAS BEEN A SUCCESS.

The School of Instruction originated about a year ago by General Foreman Kellogg, has been an unqualified success. It is open to all who are employed at the West Oakland yards. It was designed principally to aid brakemen, firemen and engineers in the intricacies of the air brake. It is said that those who have completed their course as prescribed by Foreman Kellogg are competent to pass any examination in the world relative to air brakes.

## LARGE CARGOES HANDLED BY MEN AT LONG WHARF.

The ships Minnie A. Thane, Martha Davis and Ruth have finished discharging cargoes of sugar. The H. C. Wright and Edna may have discharged their cargoes on Thursday. The Galway and Charles E. Moody finished discharging cargoes of sugar on the 9th of the month.

The coal ship John Ena, consigned to the Southern Pacific Company, has arrived. The steamer Matewan, loaded with coal, is expected to arrive today. The Martha Davis and M. E. Caine, loaded with sugar, have arrived from the Hawaiian Islands.

The Thalita is discharging a cargo of coke, pig iron and firebrick. The steamer Belgian King and the ship Babcock have taken on cargoes of barley for New York. Cambrian Hills and the Melanope are discharging cargoes of coke.

## AUSTRALIA PURCHASES MUCH CALIFORNIAN LUMBER.

Within the last few months Australia has increased her trade in California lumber to an extent that justified putting on three ships to carry lumber from this port to Sydney and Melbourne. Heretofore the Puget Sound region has been supplying Australia with nearly all the lumber used there, but recently quite a change of sentiment seems to have come over the Australian lumber dealers and trade seems to be drifting toward California.

There are several ships now on the way to Australia loaded with redwood, sugar pine and yellow pine. The latter two woods seem to be in especial demand in the Antipodes. Orders have been placed with local lumbermen for three shipments of pine lumber. The ship of Italy will sail the early part of next week for Melbourne loaded with sugar pine. Two other vessels will shortly load and sail for the same port.

## REPAIRS BEING MADE BY VARIOUS SHOPS.

Master Car Repairer Englebright announces his force of men very much rushed in turning out 250 to 280 passenger cars per day. The repair work consists of cleaning wood work, replacing wheels, making alterations, and in fact, any change which may be needed. It requires great executive ability to handle that number of cars every day and not fall behind in the work.

The blacksmith shops are forging 4,000 hangers to be put on the seventy-five cars being built to carry away the excavations of the tidal canal.

The forty steamer on the marine ways has been cut exactly in half. The hull, engine room, cabins and decks are going to be completely remodeled.

## FIREMEN WHO HOPE TO BE ENGINEERS.

The following firemen are being examined relative to their fitness for the position of engineer: R. H. Wood, R. C. Wood, Roy Craig, Roy Waymouth, H. T. Waymouth, H. L. Robertson and D. S. Liddle.

Those superintending the examination are Traveling Engineer Stevenson, General Foreman Kellogg and Superintendent Agler.

The examination includes the subjects of engineering, the use of the air-brake and the knowledge of the time-table, etc.

## PERSONAL HAPPENINGS AMONG RAILROAD MEN.

Charles P. Muller and Charles Hawkins of the freight department will take a two weeks' vacation, leaving for Los Angeles next week.

Joe Hollicker of the repair shops has returned to work after spending a delightful honeymoon with his bride, who was formerly known as Mrs. Hergerson. M. Raglier, Division Engineer Lloyd,

Division Superintendent Asher, Master Car Repairer H. Engelbright and Assistant Master Mechanic Russell left Friday on a tour of inspection of the Northern Division.

Resident Engineer J. M. Herbert went south in his private car, San Jose, to inspect the Southern Division.

Assistant Master Car Builder Gilbert of Sacramento spent Thursday in inspecting the yards.

J. A. Edson, general manager of the K. C. P. G., arrived in Oakland yesterday morning in his private car '49. It is probable Manager Edson will inspect the Western Division of the Southern Pacific Company before he returns.

W. B. O'Banion, passenger car builder, hurt his foot seriously last Tuesday and has laid off for ten days in consequence.

Ticket Agent Tucker and family of Moffatt are visiting their many friends in the city. They expect to remain about two weeks.

E. Putney of the carpenter shop has gone to Sacramento to witness the fair. His wife accompanied him. They will be gone about ten days.

Machinist H. Parker has left for a ten days' vacation in Sacramento.

S. Lumsden and James Dolan of the machine shops are making a fishing excursion to the Farallone Islands. They expect to catch enough fish to supply all their many friends.

Machinist Horace Crocker left last week for a three months' trip East. He stopped off at Sacramento where he is interested in a number of speedy 2-year-olds. It is said that he made quite a killing in the last few days by playing his own horses.

Machinist Alex Morrison returned from Sacramento last Thursday night.

Jack O'Connor and Jack Slavin of the machine shops have taken a pleasant trip to Los Angeles.

Machinist John Robertson and family have spent a week in Los Angeles.

James Dignin of the machine shops is going on a vacation of two weeks.

Foreman Welsh of the machine shops is spending a two weeks' vacation at Monterey.

General Foreman P. G. Kellogg of the machine shops has returned from Salt Lake and is on duty again.

A. Leighton has been transferred from the machine shops to the back shop to assist in repairing engines.

George Adams has been given charge of the lathe machine.

Leland Sterling and Jimmy Dignin have resigned from the machine shop baseball team.

Charley Swinson and his bride, who was formerly Miss Kate Lieboth, have returned from their honeymoon.

Machinist Charles Rice had two fingers smashed by a piston rod on Tuesday last. The next day he opened an artery in his hand by a pin sticking him.

Geo. W. Wood, formerly an employee of the boiler shop, paid his many friends a visit on Wednesday last.

## STRIKE INJURES THE SHIP YARDS

Many Contracts Are Refused on Account of the Labor Troubles.

The work of discharging coal and lumber along the water front is proceeding without interruption, and the stationing of policemen at the various wharves is purely a precautionary measure.

Work on the lumber schooners Muriel and Marion is nearing completion, and the John A. at the Derby wharf will commence unloading today.

At the Adams wharf there is but one schooner, the Wing and Wing, and her cargo of lumber will be entirely discharged within a few days.

Several barges are alongside the ship Many Down and are receiving coal to be towed across the bay.

The schooner Jennie and Edna arrived at the Taylor bunkers this morning. She is discharging her cargo of 150 tons of coal consigned to C. R. Allen. The stevedores employed upon the Jennie and Edna are from San Francisco.

At the various shipyards there is a noticeable scarcity of ships on the ways. The managers of the different yards in each instance attribute this laxness to the strike, and the difficulty in obtaining material arising therefrom. The managers of Dickie's shipyards state that they have refused thirteen contracts since the beginning of the strike, and declare that no more work will be accepted by them until the existing uncertainty is at an end.

At the yards of W. A. Boole and Son the brig Galilee, the schooner Sailor Boy, and the bark Edward May are undergoing repairs. The tug Richmond, owned by the Santa Fe Company, is awaiting a place on the ways now occupied by the Galilee, which is being painted. The schooner and bark are each receiving a thorough overhauling.

At the yards of Ilay and Wright, dredger No. 3 of the Pacific Coast Dredging Company is being cleaned and repaired.

Work at the Dickie yards is confined to the steamer which is being constructed for the Pacific Coast Steamship Company. Owing to the strike the machinery for the steamer is not

yet in place, although the framework of the vessel is completed.

The men at work in the shipyards are congratulating themselves on their narrow escape from being compelled to go out on a sympathetic strike. Shortly before the strike was declared the ship-builders on this side of the bay were urged to ally themselves with the Water Front Federation, and after considerable discussion the matter was put to vote. The result disclosed the fact that the change of a single ballot would have carried the resolution for an alliance with the Federation, in which event the men would have at the present time been idle.

## EXCELLENT BILL AT THE DEWEY.

There will be a duel attraction at the Dewey Theater tonight when Gus Ruhlin and Ed Martin will spar a number of rounds after the most approved style of the fistie profession. Ruhlin is on the highroad to the championship and, as a consequence, there is a great desire on the part of many lovers of the sport to see him. His boxing partner, Martin, is very clever with the gloves.

In addition to this feature, there will be produced by the Stevens Stock Company, a roaring farce entitled "Mistakes That Happen."

The program will run through the week.

**ROOSEVELT'S POLICIES.**

Just what the political effect of McKinley's death will be is a conundrum that all will be glad to have answered satisfactorily. The continuance of a Republican administration removes all possibility of any radical change in the existing policies, but at the same time it must be remembered that entirely new influences will now dominate the White House.

While no one has ever believed the Democratic gains to the effect that Senator Hanna has been the sole guiding spirit of what we call McKinleyism, there is no doubt that he had much to do with framing the policies of the late President, and that his advice was regarded more perhaps than that of any other official in governmental circles. Furthermore, he was the acknowledged champion in Congress of all administration measures, and as he is an able worker and a shrewd politician, to his personal efforts many of the successes that marked McKinley's Presidential career are doubtless due.

The question now is, where will Hanna and his Congressional allies stand as regards Roosevelt? It is well known that Hanna and the new President are not the warmest of friends, for although as far as anyone knows their relations have always been amicable, it is certain that Hanna did not look with too kindly eyes upon Roosevelt's Presidential ambitions. However, the new executive is starting out in a manner that indicates pleasant relations all along the Republican line, for although later on he will doubtless surround himself with a cabinet of his own selection, he is inclined for the present to let things run along exactly as he found them. There is satisfaction to be found, too, in his manly statement upon taking the Presidential oath on Saturday last: "In this hour of deep and national bereavement," he said, "I wish to state that it shall be my aim to continue absolutely unbroken the policy of President McKinley for the peace and prosperity and honor of our beloved country."

That should be assurance enough of where Roosevelt intends to stand and what the outcome will be, for as long as he keeps such aims and goals before him he will receive the support of every loyal Republican, factions and "wings" notwithstanding.

It will be hard luck for Lipton if the President's death results in the yacht races being declared off. He never could have had a better chance of capturing the cup than the present one and if postponement is taken to next year it is a sure thing that we will profit enough by the failure of the Constitution to turn out a boat that will make his task a harder one than it looks just now.

The Governor of New Mexico has issued a call for a statehood convention and urges all citizens of the Territory to press the issue at the next session of Congress. He probably thinks that because so many of Roosevelt's pet Rough Riders came from that part of the country they will have a kindly influence in the White House that will help them out in their fight.

There are said to be forty counties in Texas without an attorney. That must be the district where Judge Lynch holds court.

### Governor Gage's Stand.

Governor Gage has acted upon the appeal of the State Board of Trade in just the manner everyone who knows him anticipated. He has declined to take the side of capital as against labor in the present controversy, and in a forceful and logical way he has outlined the situation in just the manner those who are unprejudiced about the matter know it to exist.

"Here are two organizations," he says, "each presumably contending for what it conceives to be a just principle, although due to their attitudes irreparable injury may result to the business interests of innocent third parties." That is the only fair way to look at the proposition. From the standpoint of the laborer the position taken by the employers is unfair and unjust, while on the other hand the capitalist regards the demands of the wage-earners as unreasonable and uncalled for. Each side has its rights and each is in fault in some particulars. So the Governor does not see why he, as representative of the entire State and not merely of certain interests in it, should take sides on the issue and with the power at his command crush out the cause of one of the contending parties.

It should not be assumed, though, that he has taken a stand with the strikers as against the Employers' Association, for he is as fair to one side as to the other. After first pointing out that the course prescribed by the law for conditions such as are now existing calls for, first, the exercise of local police power, then an appeal to the Sheriff, and, finally, to the Governor, he declares that "whenever the Sheriff of any county announces his inability to preserve the peace and execute the laws, I shall if not already fully advised of the conditions" personally proceed to the place where the disorder exists, and if a proper case appears for the exercise of such stern measures, I will assist the Sheriff with militia to execute the laws."

That such a condition has not yet arisen he shows conclusively by reference to the ease with which the police are handling the strikers in San Francisco, and also by official denials from the Sheriff of Solano and Contra Costa counties that the crops cannot be moved because of fears of mob violence and a lack of protection for those willing to work. The Governor has summed up the whole situation in a way that will gain him friends, except, of course, in those selfish circles that have appealed to him in vain to coddle the strikers by means of armed force, and he echoes the sentiment of every fair-minded citizen when he says: "It is to be very deeply regretted by all right-thinking persons that compromise of the differences cannot be obtained and that reasonable mutual concessions cannot be made by the employers and Teamsters' Association on the one hand and the labor unions on the other."

That's the idea; compromise, not conquest, is the way to end the strike.

Legislation of some character restricting the liberties the anarchists have heretofore enjoyed in the country is bound to be enacted at the next session of Congress. The most ardent advocate of freedom and human rights will no longer raise a word of protest to the taking of steps that will prevent offering sanctuary in this country to such wretches as Czolgosz, Bresci, Isaak, Goldman, et al.

Roosevelt need have no further fears about getting the Presidential nomination in 1904; that is, if he carries out the policies he has declared himself for. In addition to his personal strength throughout the country he will have all the mighty forces of the administration at his command, and they alone mean more than half the battle.

The Chronicle says that Governor Gage's answer to the State Board of Trade is "tart." It certainly is very crusty if that is what is meant.

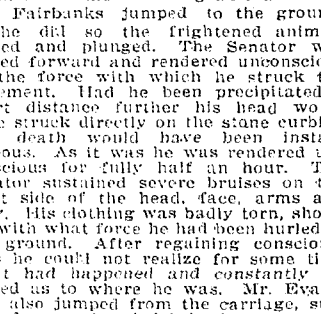

Instead of "Down with the anarchists," the cry should be "Up with them"—at the ends of ropes.

**Senator Fairbank's Narrow Escape.**

Minneapolis, Minn.—United States Senator Charles W. Fairbanks of Indiana had an almost miraculous escape from death Saturday afternoon while driving with District Attorney Robert G. Evans.

On reaching the home of the latter the horses attached to the carriage were attacked by a vicious dog. The spirited animals became unmanageable and Senator Fairbanks jumped to the ground. As he did so the frightened animals reared and plunged. The Senator was hurled forward and rendered unconscious by the force with which he struck the pavement. Had he been precipitated a short distance further his head would have struck directly on the stone curbing and death would have been instantaneous. As it was he was rendered unconscious for fully half an hour. The Senator sustained severe bruises on the right side of the head, face, arms and body. His clothing was badly torn, showing what with force he had been hurled to the ground. After regaining consciousness he could not realize for some time what had happened and constantly inquired as to where he was. Mr. Evans, who also jumped from the carriage, sustained several painful bruises on arms and body and a severe cut above the right eye.—Chicago Tribune.

**A SASH WORN AT FUNERAL OF LINCOLN.**

Major E. A. Sherman of this city has a reminder of the funeral of President Lincoln in New York City, on April 24, 1865, nine days after the "martyr President," like McKinley, fell under the hand of an assassin.

The memento is a sash of pure white silk with black-corded edges. On the face are the words in large black letters "Pacific Coast." On the front, almedo, are two black and white rosettes, one of which contains a small photographic vignette of Lincoln surrounded by a tiny metallic frame which was quite generally used in those days. Where the front and black ribbon cross at the side there is another black and white rosette and the ends of the ribbon are frayed in black and white cords.

This sash is a rich and tasty memento and shows the greatest attention which was given to the details of the sorrowful pageant, so many years ago. The sash was worn by Major E. A. Sherman and was the symbol of his authority as marshal of the division of the procession which was representative of the Pacific Coast, including the States and Territories.

**NORCROSS OF THE COMSTOCK GIVEN SIMPLE BURIAL.**

**CERTIFICATE OF APPOINTMENT.**

The certificate of appointment of Robert Forgie as a regular police officer has been filed with the City Clerk.

**A Woman's Face**

Tells its own story. A laugh is often a lie on a woman's lips. It belies the pain which is tearing at the nerves. But the eyes have no part in the laugh. Their purple rings speak of suffering. There are lines too about the mouth which only pain can give. Many women look forward to a week of such misery each month. Three months of each year are given up to suffering. It weakens them. It ages them. It robs them of social pleasures and family joys. Can there be any excuse for such women who fail to try Dr. Pierce's Favorite Prescription? It has cured thousands of such sufferers. Cured them perfectly and permanently. It cures ninety-eight out of every hundred who give it a fair and faithful trial. It's sure to help. It's almost sure to cure.

"I had falling of internal organs and had to go to bed every night, had irregular monthly periods which would sometimes last ten or twelve days," writes Mrs. Alice L. Holmes, of Goodspring Street, Uniontown, Pa. "Had indigestion so bad that I could not eat anything hardly. Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' cured me."

Free. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for paper-bound book or 31 stamps for cloth binding to Dr. R. V. Pierce, Buffalo, N. Y.

"Whereas, His Excellency, Henry T. Gage, Governor of the State of California, has declared said date a public holiday for general prayer and mourning, and a day for public testimony of the sorrow of the people of the State for the loss of their illustrious President and noble citizen William McKinley, and ordered that the flags on all State buildings be placed and kept at half mast for thirty days; therefore

The difference in the price will often enable you to yet one or two pairs of good gloves to wear with the new hat. Isn't that a saving worthy of your serious consideration? But judge of our prices only after you have seen the goods, for the quotations themselves would almost seem to preclude the style and beauty we attach them to.

The race meet of the Golden Gate Society at Emeryville track opened this afternoon under particularly propitious circumstances, both as to weather, and attendance.

The races, which will last eight days, are to include some of the best horses known to the East, as well as the crack-a-jacks of this coast.

Rosewar, Favonius, and other favorites of the Burns and Waterhouse stable will be entered in the various events, and the Eastern string of J. W. Schorr will also be well represented. W. B. ## W. N. DIMMICK IS INDICTED.

Three Indictments Found Against ex-Chief Clerk of the Mint.

SAN FRANCISCO, Sept. 15.—The Federal Grand Jury today returned three indictments against Walter N. Dimmick, former chief clerk of the Mint, the accusations being similar to those filed in the original complaints upon which warrants of arrest were issued.

The members of the Grand Jury filed into the District Court shortly after 11 o'clock and presented the indictments to Judge De Haven.

The main charge is that in the third indictment, where Dimmick is accused of embezzling \$30,000 from the Mint prior to June 30, 1901.

One indictment charges Dimmick with presenting a false claim and obtaining and embezzling and using \$498.37. This amount was received from cashier Cole and it is alleged that it was paid on a voucher representing a transaction where no money was to have changed hands. This is the charge on which Dimmick has been having a hearing before Commissioner Hancock.

The second indictment charges Dimmick with embezzling, using and failing to deposit seven different sums of money between December 15, 1899, and February 20, 1901, when Superintendent Leach said he would count the cash he had from the sale of bluestones. It is claimed that Dimmick admitted to Mr. Leach that he had \$1,338 for personal purposes. The bail on these three indictments was placed at \$30,000, \$2,500 and \$500.

Attorney George D. Collins told United District Attorney Woodworth that he would like to have Dimmick arraigned Wednesday and the trial set for an early date. It is likely the case will be called before the 15th of next month.

On motion of Mr. Woodworth, Commissioner Hancock formally dismissed the cases pending before him. Privately Judge Hancock told Mr. Woodworth that he would have held Dimmick to answer.

## DENIES CHARGES MADE BY CAPT. WILLIAMS' WIDOW.

Louis Lazarus, who is being sued by Mrs. Sarah D. Williams for the recovery of property alleged to have been fraudulently obtained from her by the late Captain Henry G. On Tuesday there is to be a 2:12 pace, in which Gaff, Topstall, Queen R., John A., Doc Wilkes, Midnight, Edna R., Dictatress, and Marguerite will start.

Wednesday's event will be a 2:16 trot. On Saturday there will be a 2:14 trot, and on Monday pacers of the 2:12 class will race.

A two-year-old maiden race of 4 1-2 furlongs will figure in Tuesday's program, together with a 3-4 mile running race in which the best horses at the track will participate. Other events scheduled for the day are: 1-16 mile dash by high class runners and 7-8 mile race, in which crack-a-jack material will figure.

During the meeting Charles Patterson will send Allgreen to the post, and it is expected that F. W. Brode, Traditza, and Time Maker will carry the Schoor colors.

Following were today's entries: First race, mile heats, three in five, 2:14 trot—Claudius, Dan W., Alte Velo, Ostio, Lyndall, Baydelio.

# FELL HEADLONG TO HIS DEATH.

John Stewart Accidentally Killed at Dicky's Shipyard This Morning.

John Stewart, a ship worker, was killed this morning by falling into the hold of a ship being overhauled at Dicky's shipyard.

According to the story of his companions he was lifting a piece of lumber over the hold of the ship.

The deck was very slippery and he lost his footing, plunging head down into the hold. The skull was fractured at the base. He died five minutes after being removed to Fabiola Hospital.

He resided with his daughter at 1125 Eleventh street in San Francisco. He was about 50 years of age.

# CZOLGOSZ IS INDICTED.

BUFFALO, N. Y., Sept. 16.—The Grand Jury has reported to Judge Emery in the County Court an indictment against Leon Czolgosz, charging him with murder in the first degree.

## MRS. HULL TELLS OF HER MANY MARRIAGES.

The attorneys of Mrs. Margaret J. Hull, who is being sued by George W. Hull for the recovery of about \$10,000 worth of property conveyed to her when he believed she was his legal wife, this morning introduced in evidence a writ of error on an appeal from the judgment of the District Court of Arizona annulling the marriage of the couple. The introduction of this document forestalled the attempt of the plaintiff to introduce the judgment of the Arizona court, because the judgment was not final after an appeal was taken. The writ of error was granted September 10.

While Mrs. Hull was on the witness stand this morning Judge Hall took occasion to question the witness as to her various marriages. In answer to questions by the court, Mrs. Hull said she had married Russ Luark in 1878, three years after she had married Sylvester M. Lowell. Following her divorce from Luark, she had married Bradshaw.

"How long did you live with Bradshaw?" asked Judge Hall.

"Until my brother killed him out," replied the witness.

"About how long was that?" asked the court.

"About three years," replied the witness.

"Where were you divorced?"

"In Los Angeles."

"Then where did you go?"

"To Seattle. I stayed there seven or eight months and then came to Stockton, where I married Ewer."

"How long did you live with Ewer?"

"Until he left me—about a year and half, I think."

Sylvester M. Lowell testified that Mrs. Hull left him at the request of her mother, who wanted her daughter to become the wife of Russ Luark, her stepson.

The testimony in the case is now about all in. The case will be continued after today for argument.

# ODD FELLOWS HOLD A SESSION

INDIANAPOLIS, Ind., Sept. 16.—This city will this week entertain the Sovereign Grand Lodge and Patriarchs Militant, I. O. O. F. Intertwined with the decorations are streamers of black, as a token of respect to the late President McKinley.

The first annual session of the Sovereign Grand Lodge was held at noon today. Grand Sire A. C. Cable of Covington, Ky., reported that during the year ending December 31, 1900, there had been 173,828 initiations, of which 2,075 were in the foreign jurisdictions.

The total amount spent in relief was \$7,753.62, an increase of \$41,256, which, however, is a much smaller increase than for the preceding year. The total increase of revenues of all subordinate branches was \$488,810. During this period the expense increased \$19,723 (a gain over 1899) and the surplus revenue amounted to \$1,727,322, out of which the increased amount of invested funds (\$929,223) came.

## DELINQUENT PROPERTY IS SOLD BY STATE.

County Tax Collector James B. Barber, representing the State Controller, today sold several pieces of property that under the new law enacted in 1895 were deemed to be State on account of delinquent taxes. The property sold was the first that had been deemed to be State under the new law, which allows property owners five years to redeem after their property has been sold to the State. The property sold today consisted of about 27 pieces of realty of small value. The receipts from the sale will go to the State Treasury. The new law provides that the State shall receive not only the amount of the delinquencies but also any surplus that may arise from the sales. On one of the pieces of property sold today the delinquency was \$125, but the property was bid up to \$500. Formerly the surplus over the delinquencies went to the respective owners of the land sold. Very few of the pieces of property sold, however, brought more than the amount of the delinquencies, because the new law has never been tested before the Supreme Court and buyers are not certain of getting absolute title.

HAVE YOU need of male help? Need of female help? Need of a situation? Or a house? Or a room? A store to let? In office? Lost or found anything? Then put a 15c want ad in THE TRIBUNE.

# CANNON BOOMS FOR THE DUKE.

QUEBEC, Sept. 16.—Amidst the booming of cannon and the whistling of hundreds of steam vessels, their Royal Highness the Duke and Duchess of York arrived here on schedule time today on board the H. M. S. Ophir.

A royal salute was fired from the fort and one of the French frigates in port and also from the citadel.

Immediately after the salute the Ophir and all the frigates half-masted the Stars and Stripes out of respect to the deceased President of the United States.

## THIRTY-THREE PEOPLE DROWNED IN WRECK.

BUDA PEST, Sept. 16.—Thirty-three persons were drowned today by the wreck of a ferry-boat, which was crossing the flooded Kulpia river near Osulj, Croatia.

## LEFT HER HUSBAND BECAUSE HE WAS CRUEL.

Albert Stevenson, residing on Harrison street near Twelfth, followed his young and pretty wife, his 3-year-old babe and his mother-in-law to the City Prison this morning and impudently demanded that his wife and child come back to him. His wife turned a cold ear to his pleadings. He finally threatened to kill her unless she returned to him.

Mrs. Stevenson tells a story of neglect, abuse and cruelty. She went to the police for protection.

## SMALL ASSESSMENT.

The Oakland Oil and Gas Company is somewhat moderate in taxing the stockholders of their corporation. The company claims to have a valuable piece of land in the Kern River district, therefore they believe in the merits of the property to fulfill their expectations rather than assessing its stockholders for the purpose of development.

The board of directors, which consists of Dr. George C. Purdee, Robert M. Kuerzel, Dr. James Shannon, Dr. Josiah Merrill and J. W. Layman, met at the office of the company this morning at 400-12 Eighth street, and levied a small assessment of two cents per share upon the capital stock of the corporation. This was done for the purpose of cleaning up all indebtedness owing by the corporation up to date. The company proposes to hold their land at present for further developments. This leaves the company with their property paid for, also \$50,000 shares of stock in the treasury for development purposes.

## MRS. MARTIN'S STATEMENT.

On Thursday last, warrants were issued and arrests made of three boys, Edward Myall, and Dod Myall, living at 1515 West street, and Harry Brewis, living at 1537 West street, for playing ball on the public street. The complaints were sworn to by Mrs. John Martin of 1602 West street, who has suffered greatly by the breaking of window glass and other annoyances by these and other boys.

In an interview with Mrs. Martin last evening she said that she was not prompted by either malice or venom; that she had remonstrated with the parents and the children and to no effect; that the law was her only protection and she invoked it as a dernier resort. Two of the boys have been constantly on the street during the past summer, a constant annoyance to the neighbors in that vicinity.

Mrs. Martin further said that she did not care to have the boys punished or fined or imprisoned, but did desire protection for her property and peace. The Judge before whom the offenders appeared severely reprimanded them and informed them that a second offense would result in their being severely dealt with.

**MINISTER IN BERKELEY SALOON**

Preaches a Sermon While the Barkeeper Sells Drinks Over the Counter.

BERKELEY, Sept. 16.—Last week an agreement was entered into between Rev. H. Robinson, pastor of the Westminster Presbyterian Church of Berkeley, and Sam Fisher, the proprietor of a West Berkeley saloon, that if the minister should go to the saloon the saloon keeper would attend service at the former's church. At 3 o'clock yesterday afternoon Rev. Robinson, accompanied by some young assistants, proceeded to move a small parlor organ from the church to the saloon, and religious services were begun. The bar room was crowded with friends of the minister and patrons of Fisher, and the services were closely followed, although several of these present purchased drinks during the ceremonies. Fisher joined heartily in the singing, but did not permit the innovation to result in the loss of a single nickel, and the words of praise were frequently punctuated by the noise of the cash register. Fisher carried out his part of the agreement by attending evening services at the Westminster Church. The minister spoke on "What Christianity Offers."

**GREAT BRIDGE ABOUT COMPLETED**

San Leandro Will Have an Excellent Showing for the Money.

SAN LEANDRO, Sept. 16.—The bridge is rapidly nearing completion. On Saturday afternoon the run way from which the earth was dumped into the open spaces at either end, was removed and the teams are now crossing over on the earth which has been filled in. The parapet on the north side of the bridge has been completed and the one to the south will be finished shortly. The completed parapet is finished off handsomely, having been made to give the appearance of small pillars along the top. Surmounting the parapet are three iron lamp posts on which will be placed electric lights, the power to be furnished by the Haywards, San Leandro and Oakland Railroad. Despite the great strength of the retaining walls, 16 or 18 great steel stirrups have been fastened along on the inside of each wall. From these stirrups rods are calculated to keep the wall from spreading, which might occur until after the earth filled in had fully settled. After the ends have been filled in and fully settled the place will be macadamized and will have the same appearance as the road at both ends of the great culvert.

**WORK RESUMED AT THE MILLS.**

Steel Strikers Are Glad to Go Back to Their Old Places.

PITTSBURG, Pa., Sept. 16.—There was no general resumption of work at the steel mills here today. With the exception of McKeesport, the mills in this district were operating about the same as last week, very few of the old men returning for work. The strikers are all at sea, and Amalgamated headquarters was crowded this morning with committees from the local mills and out-of-town plants anxious to learn the terms of settlement of the big strike. None have been officially notified that the strike has been declared off and a great deal of indignation was expressed by the different delegations on the announcement that President Shaffer, who had arrived early, would see the committee from each mill separately and explain the result of the New York conference and the terms of settlement. From the sentiment of the men in plate workers today, they will continue the strike. Dissatisfaction over the ending of the strike on terms said to be so unfavorable to the Amalgamated men extends to nearly all of the plants in this district. The employees of Patents' mill of the American Steel Hoop Company declared they will not return on conditions imposed at the New York conference. At the Lindsay & McCutcheon plant the strikers said they would remain out until officially notified of the strike being off by President Shaffer.

**SUCCESSFUL OPENING OF DIETZ OPERA HOUSE.**

The Fischer Specialty Company gave their opening performances at Dietz Opera House Saturday and Sunday evenings, when large audiences were present. The performers were experts in their line, and richly deserved the applause they received. Another captivating number was the fun-making team, Amos Davis and Mabel D. Heard, who were alone worth the price of admission. The rest of the program met with a hearty reception, and it is the intention of the company to give high-class performances every Saturday and Sunday evening.

**LARGE FUNERAL AT PLEASANTON.**

Services Held Over the Remains of the late John A. Bilz.

PLEASANTON, Sept. 16.—The funeral of the late John A. Bilz, the well known enterprising citizen and manufacturer who died last Friday from injuries received while at work in his factory on Main street, took place yesterday. It was perhaps the largest demonstration of the kind ever held in this city. The effect of Mr. Bilz's death was keenly felt by every resident of this place and for miles around. At some time or other, nearly every person in this valley has had business relations of some kind with Mr. Bilz, and as a consequence the death was not only known to, but was also esteemed by, everybody in this vicinity. The deceased had resided here since 1885, when he built and established one of the best agricultural implement industries in this county. Mr. Bilz was in a peculiar way a genius. He invented a vineyard plow and a sulky which was greatly admired and which attracted a great deal of attention at the Mechanics' and State Fairs and at the World's Fair in Chicago. Through Mr. Bilz, the city of Pleasanton was advertised throughout the Pacific Coast. He never allowed a piece of inferior workmanship to leave his shop, and his name was a synonym for honor and integrity. The remains were followed to the grave by hosts of people, there being more than 150 carriages in line. The exercises were held in the home of the deceased adjoining the factory on Main street, where religious services were conducted by Rev. Mr. Cunningham. The remains were then borne to the rooms of Alisal Lodge, F. and A. M., where the ritual of the Masonic order was read. They were then taken to the cemetery, where the commitment services were read by the master of the lodge, the members of which organization turned out in large numbers. The officers of Alisal Lodge in charge of the exercises were as follows: E. E. Hall, master; L. C. Walter, S. W.; H. P. Mohr, J. W.; Robert Ellis, S. D.; H. A. Sinclair, J. D.; E. L. Benedict, T. C. H. Silver, secretary; Hans Tertleson, tyler. The ranks of Alisal Lodge were swelled by members of Masonic lodges from Livermore, Oakland and other places, the Masons in line being as follows: Hans Tertleson, P. C. Thorup, Dr. L. A. Colestock, M. R. Homes, G. E. Kennedy, G. H. Schween, F. A. Schrader, J. A. Jacobs, James Hutchinson, Thomas Venn, August Hagemann, S. L. Savage, A. Bistorous, Thomas Snarey, W. J. Connell, Wm. Schluter, E. L. Benedict, H. P. Mohr, T. H. Silver, L. C. Walter, F. P. Fassett, C. H. De H. Smit, Dr. W. H. Cope, Robt. Ellis, E. E. Hall, Daniel Imman. The pall bearers were William Schween, C. L. Crellin, H. C. Fusler, J. G. Moyola. There were a number of floral pieces sent by Mr. and Mrs. T. W. Harris, the Misses and Mrs. Lucas, G. Schow and family, Mrs. Louis C. Walter, E. L. Benedict, Mr. and Mrs. E. Remillard, E. S. Mard and Mr. and Mrs. Antone Schween.
